Usman Nadiry

Full-Stack (MERN) Developer Intern @ Skyware IT Solutions |
Building Web Applications
Peshawar, Khyber Pakhtunkhwa, Pakistan

Summary

I am a MERN Stack Developer and Computer Science student passionate about building scalable and user-focused web applications. I work with MongoDB, Express.js, React.js, and Node.js to develop full-stack solutions from idea to deployment. Currently interning at @Skyware IT Solution, gaining real-world experience in professional development and teamwork. My long-term vision is to build impactful technology products and launch a global messaging platform powered by intelligent features. I believe consistency and discipline turn big dreams into reality.

Experience

Skyware IT Solutions Private Limited
Full-Stack (MERN) Developer Intern
February 2026 - Present (1 month)
Peshawar

Working as a MERN Stack Developer Intern, contributing to full-stack web applications using MongoDB, Express.js, React.js, and Node.js.

Developing responsive user interfaces, building RESTful APIs, integrating databases, and collaborating with the development team on real-world projects.

Gaining hands-on experience in clean code practices, Git version control, debugging, and scalable application architecture.

Education

Islamia College Peshawar (Chartered University)
F.Sc, Computer Science · (September 2024 - May 2026)
